

DUR Desoldering Tip Set, angled chisel shape 1.5 mm, with heating element - Ersa 0462MDLF015

Item no. ER-0462MDLF015

Manufacturer Ers

EAN 4003008092950

DUR desoldering tip set with an angled, chisel-shaped tip 1.5 mm wide, supplied including the heating element. The durable ERSADUR-LF coating ensures excellent heat transfer and long service life. Fits i-CON VARIO 2/4 and Chip-Tool Vario (0460MDJ).

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.1 kg

DESCRIPTION

Desoldering tip set in an angled, chisel-shaped design, 1.5 mm wide, supplied including the heating element and finished with the durable ERSADUR-LF coating.

Suitable for the i-CON VARIO 2 and i-CON VARIO 4 stations as well as the Chip-Tool Vario desoldering tweezers (0460MDJ). ERSADUR soldering tips are galvanically plated with an iron layer and protected against corrosion and oxidation by an additional chromium layer. Perfect heat transfer protects the heating element from overheating and premature wear, making the tips suitable for continuous operation.

TECHNICAL DATA

Tip coating	Long-life tip (ERSADUR-LF)
Tip diameter/width	1.50 mm
Tip shape	chisel-shaped
Design	angled
Shaft outer diameter	3.00 mm
Tip series	462
Scope of delivery	incl. heating element
RoHS compliant	Yes
