- measures 150 x 145 x 80 mm
- weight 445 g, empty-weight 270 g
- content: side cutter, needle nose pliers, screwdrivers slot 1.5 mm, cross-recess PH000, SMD-tweezers sickle-shaped, SMD-tweezers angulated

Area of application

For more order in the workplace! The VARIO tool holder was developed for the orderly suspension of pliers, tweezers and screwdrivers. This set offers the basic equipment of tools for working on simple electronic components. 100% conductive.

Technical description

The practical VARIO tool holder is made of sturdy 1.5 mm sheet steel and is provided with a high-quality, conductive black powder coating. In addition to pliers and tweezers, our handy screwdrivers or round objects with a maximum diameter of 9 mm can also be stored. The recess in the lower area allows the blades or tips of the tools to be quickly identified and selected. The locking aid at the rear edge additionally helps to hold each tool in position. Small noses on the upper edge of the suspension rail prevent pliers or tweezers from slipping down. The tool holder can be set up as well as hung. Two holes on the back allow easy mounting on the wall.
