- Bernstein 6615. Tool case PROTECTION XL without tools

Technical description

The dimensionally stable and robust case for high loads. With the double aluminium frame and the break-resistant X-ABS case shells, the case can carry loads of up to 40 kg and is also airworthy. All tools are clearly presented on the movable and removable tool boards made of ConPearl material. The ergonomically shaped handle with recessed grips and the ratchet hinges with lid locking complete the picture of a highly functional and modern tool case.
