DESCRIPTION

ERSADUR long-life soldering tip, straight, extended, chisel-shaped, with a 2.2 mm tip diameter and ERSADUR coating. ERSADUR soldering tips are high-quality and built for continuous operation: a special galvanic process plates them with an iron layer, while an additional chromium layer protects against corrosion and oxidation. The excellent heat transfer protects the iron's heating element from overheating and premature wear.

Compatible with: soldering stations ANALOG 60, ANALOG60A, DIGITAL80, DIGITAL80A, DIGITAL2000A, RDS80, MICRO-CON60, TWIN80A, ELS8000/M/D, MS6000 and MS8000, plus the Power-Tool, Ergo-Tool, Multi-Pro, Multi-TC, PTC 70 and Multi-Sprint soldering irons.
