DESCRIPTION

Long-life soldering tip, straight, extended, pencil point, 0.8 mm diameter, with ERSADUR-LF coating for lead-free soldering. The extended service life is ideal for applications with high heat demand.

ERSADUR soldering tips are produced to a high standard and built for continuous operation. In a special galvanic process they are plated with an iron layer and protected against corrosion and oxidation by an additional chromium layer. Perfect heat transfer protects the heating element of the soldering iron from overheating and premature wear.

Compatible with: soldering stations ANALOG 60, ANALOG 60A, DIGITAL 80, DIGITAL 80A, DIGITAL 2000A, RDS 80, MICRO-CON 60, TWIN 80A, ELS 8000/M/D, MS 6000 and MS 8000, as well as the Power-Tool, Ergo-Tool, Multi-Pro, Multi-TC, PTC 70 and Multi-Sprint soldering irons.
