

ERSADUR Soldering Tip, Straight, Chisel-Shaped, 1.6 mm - Ersa 0842YD

Item no. ER-0842YD

Manufacturer Ers

EAN 4003008076127

ERSADUR permanent soldering tip, straight and chisel-shaped, 1.6 mm wide, designed for higher heat demand. Its iron-plated, chrome-protected coating ensures a long service life and excellent heat transfer. Fits ERSA soldering stations and irons that use 842-series tips.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.01 kg

DESCRIPTION

Permanent ERSADUR soldering tip, straight, chisel-shaped and 1.6 mm wide, with ERSADUR coating and extended service life for higher heat demand. ERSADUR tips are precision-made for continuous operation: in a special electroplating process they are plated with an iron layer and protected against corrosion and oxidation by an additional chromium layer. The excellent heat transfer protects the heating element of the soldering iron against overheating and premature wear.

Compatible with the soldering stations ANALOG 60, ANALOG60A, DIGITAL80, DIGITAL80A, DIGITAL2000A, RDS80, MICRO-CON60, TWIN80A, ELS8000/M/D, MS6000 and MS8000, as well as the soldering irons Power-Tool, Ergo-Tool, Multi-Pro, Multi-TC, PTC 70 and Multi-Sprint.

TECHNICAL DATA

RoHS compliant	Yes
Version	straight
Tip coating	Permanent tip (ERSADUR)
Tip shape	chisel-shaped
Tip diameter/width	1.60 mm
Shaft inner diameter	6.60 mm
Shaft outer diameter	8.50 mm

Overall length	38 mm
Tip series	842
Net weight	0.01 kg
