

Bernstein 9-205. Ball joint vice SPANNFIX for clamping

Item no. BS-9-205

Manufacturer Bernstein

EAN 4250838511162

Ball joint vice SPANNFIX for clamping

TECHNICAL DATA

Ausführungsklasse	TEC
HS-Code	82057000
Height	31
Weight	1.45 kg

DESCRIPTION

- for clamping (re-connecting), workbenches with max. 80 mm table thickness
- with precision ball joint
- jaw width 50 mm
- infinitely adjustable
- clamping pressure: 1470 N
- clamping width 70 mm
- clamping depth 38 mm
- cast aluminum with high-quality powder coating in dark grey metallic
- weight 1450 g
- equipment replacement jaws 9-900-0181

Area of application

The SPANNFIX 9-205 is suitable for workbenches or work areas with a maximum table top thickness of up to 80 mm. The small vice with ball joint is quick and easy to attach to any workbench or worktop due to its table clamp. A small pressure of the lever is sufficient and the clamped workpiece can be fixed steplessly and in any practical working position.

- Bernstein 9-205. Ball joint vice SPANNFIX for clamping

Technical description

The SPANNFIX is a multifunctional vice with a flexible head and many possible applications. By using a high-quality ball joint, the head of the SPANNFIX can be tilted and fixed in any direction and offers optimum hold in any position. With the help of an adjusting screw at the lower seat of the ball, the ball mobility can be individually adjusted. The ball is held and released with a simple lever movement. Long service life is guaranteed by the high-quality, powder-coated cast aluminium and the surface-finished steel parts!
