| Item no. | ER-0740EDJ | Manufacturer | Ersa |
| Manufacturer no. | 0740EDJ | EAN | 4003008095500 |

Powerful X-Tool Vario desoldering iron with 150 W heating power for the most demanding desoldering of conventional components on high-mass PCBs. The desoldering tips change very easily and the residual solder container is easy to clean. Antistatic design for use with the ERSA i-CON 2 V, i-CON VARIO 2 and VARIO 4 stations.

DESCRIPTION

The ERSA X-Tool Vario is one of the most powerful desoldering irons, with 150 W heating power for the most demanding desoldering of conventional components on high-mass PCBs. The desoldering tips change very easily and the residual solder container is easy to clean.

Supplied with the ERSADUR permanent desoldering tip 0742ED1225 (1.2 mm inner diameter). For use with the i-CON 2 V (0IC2200VXT), i-CON VARIO 2 (0ICV2000AX) and i-CON VARIO 4 (0ICV4000AICX) soldering/desoldering stations.

Technical data

| Property | Value |
|-------------------|------------------------|
| Operating voltage | 24 V AC |
| Heating power | 150 W |
| Heat-up time | approx. 35 s to 350 °C |

| Property | Value |
|-----------------------------|---|
| Temperature range | 150 - 450 °C |
| Temperature measurement | Ni-CrNi thermocouple |
| Starting vacuum | up to 700 mbar |
| Soldering tip | straight, permanent tip, series 742 |
| Tip diameter | 1.20 mm |
| Replacement heating element | 074100J |
| Operating mode | at station |
| Design | antistatic (ESD safe) |
| Weight | approx. 210 g incl. cable and desoldering tip |
| RoHS compliant | Yes |

Replacement and wear parts

- 074100J001 heating head
- 3T7440-00 solder collection container, complete
- 3T7440-02 silicone holder for glass tube
- 3T7440-03 lid for glass tube
- 3T7440-04 filter plug
- 3T7440-05 filter disc
- 3YE1057-02 pre-filter
- 3N090 cleaning brush
- E074600 service tool for X-Tool Vario
