

Independent 75 Gas Soldering Set Basic, 75 W, cordless, piezo ignition - Ersä 0G07400041

Item no. ER-0G07400041

Manufacturer Ersä

EAN 4003008061567

Cordless gas soldering set for service and maintenance work where no mains power is available. The antistatic gas iron with piezo ignition runs on standard butane gas and delivers a continuously adjustable 15 - 75 W at tip temperatures up to 580 °C. Supplied complete in a transport case with soldering tip, spare tip, sponge tray and rest stand.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.26 kg

DESCRIPTION

The ERSÄ Independent 75 gas soldering Basic Set delivers mobile soldering power without a mains connection - ideal for service and maintenance work. The ergonomic, antistatic gas soldering iron with piezo ignition runs on standard butane lighter gas and provides a continuously adjustable output of 15 - 75 W (comparable to an electric soldering iron) at tip temperatures of up to 580 °C.

The set is supplied in a practical plastic transport case and contains the gas soldering iron with a fitted 2.4 mm chisel-shaped soldering tip (0G072KN), one spare soldering tip, a sponge tray with cleaning sponge (0006G) and a rest stand (0A20).

TECHNICAL DATA

RoHS compliant	Yes
Nominal power	75 W
Power range	15 - 75 W, continuously adjustable
Max. tip temperature	580 °C
Heat-up time	46 s
Operating mode	Gas operation (butane)
Gas reservoir	approx. 6 ml
Finish	nickel-plated
Soldering tip	0G072KN (G072 series)

Tip diameter	2.40 mm
Tip form	chisel-shaped
Tip coating	permanent soldering tip
Iron dimensions	approx. 3 cm diameter / 17.7 cm length
