

Mica Plate 0.03-0.04 mm, 20 x 80 mm - Erska 3GP20.0X80.00

Item no. ER-3GP20.0X80.00

Manufacturer Erska

Heat-resistant mica plate used as electrical insulation in Erska soldering equipment. Thickness 0.03-0.04 mm, size 20 x 80 mm. Original spare part for heating elements and solder baths.

TECHNICAL DATA

Ausführungs-kategorie **TEC**Country of Manufacture **Germany**Weight **0.1 kg**

DESCRIPTION

Mica plate used as a heat-resistant, electrically insulating component in Erska soldering equipment. Mica combines high temperature resistance with excellent electrical insulation properties, which makes it well suited as insulation in heating elements and solder baths. Original Erska spare part.

TECHNICAL DATA

Article number	3GP20.0X80.00
Material	Mica
Thickness	0.03-0.04 mm
Size	20 x 80 mm
Function	Heat-resistant electrical insulation
