

Conductive Laminating Film ESD DIN A3, 304 x 434 mm, transparent, 100 pieces - A1- ESD C-199 2752-T

Item no. C-199 2752-T

Manufacturer A1-ESD

Conductive ESD laminating film in DIN A3 format for laminating documents with standard laminators. The transparent PET film gives laminated papers an ESD-safe surface with low dissipative resistance. Packaging unit 100 pieces.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Transparent
ESD equipment	ESD-Beläge
Height	434
Sales unit	100 Stück
Weight	0.1 kg
Width	304

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Conductive laminating film for laminating documents with standard laminators. The laminated papers are protected and gain an ESD-safe, dissipative surface for use inside the protected area.

TECHNICAL DATA

- Design: DIN A3
- Material: PET
- Film thickness: 0.10 mm
- Dissipative resistance: 10^4 to 10^5 Ohm
- Dimensions: 304 x 434 mm
- Packaging unit: 100 pieces

APPLICATION

Laminating travellers, work instructions and datasheets for use at ESD workstations.
