

Permanent heel band extra wide, snap fastener

Item no. EP0104003

Manufacturer A1-ESD

Permanent heel band with extra wide contact area of tear-resistant rubber for shoes with a flat heel. The 61 cm nylon-polyester grounding tab gives secure body contact. Adjustable snap fastener.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Certification	IEC 61340-5-1
Geschlecht	Unisex
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The A1-ESD permanent heel band grounds a person through their footwear and drains electrostatic charges to the dissipative floor in a controlled way. The extra wide contact area of tear-resistant rubber gives a large floor contact for continuous use.

BENEFITS

- Extra wide heel contact area of tear-resistant rubber
- 61 cm, 8 strand nylon-polyester grounding tab for secure body contact
- Adjustable snap fastener for fast fitting and a firm hold

TECHNICAL DATA

- For shoes with a flat heel
- Contact element: tear-resistant rubber, extra wide
- Grounding tab: 61 cm, 8 strand, nylon-polyester
- Fastening: snap fastener, adjustable
- Resistance RG: 1×10^6 ohm to 1×10^7 ohm

APPLICATION

For personnel grounding in electrostatic protected areas (EPA) with a dissipative floor covering, for example in electronics manufacturing, assembly and test.

STANDARDS

Complies with IEC 61340-5-1.
