

Grounding module UK with 3x DK10 connections - A1-ESD EP0101011

Item no. EP0101011

Manufacturer A1-ESD

Grounding module for British 13A sockets with three 10 mm snap connections. Each connection has its own 1 MΩ resistor and allows several ESD grounding cords to be grounded at the same time.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The grounding module fits British 13A sockets and provides three 10 mm snap connections for ESD grounding cords. The individually protected outputs let you dissipate several wrist straps or mats safely at the same time.

BENEFITS

- fits UK 13A sockets
- three 10 mm snap connections for several grounding cords
- a dedicated 1 MΩ resistor on each connection
- personnel-safe dissipation of static charges

TECHNICAL DATA

- Connections: 3 x 10 mm snap (DK)
- Safety resistor: 1 MΩ per connection
- Mains connection: UK 13A plug

APPLICATION

For grounding several people or items of equipment at the same time at EPA workstations with British sockets.

STANDARDS

Suitable for building ESD protected areas to IEC 61340-5-1.
