

Pacemaker Warning Sign, diameter 10 cm, self- adhesive - A1-ESD EP0601013

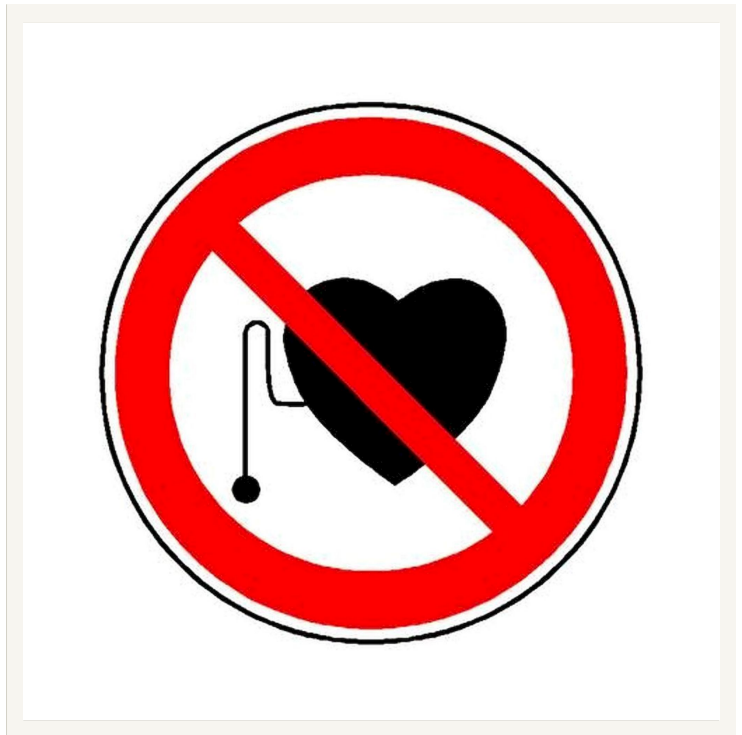

Item no. EP0601013

Manufacturer A1-ESD

Self-adhesive warning sign with a prohibition symbol for people with a pacemaker, diameter 10 cm. Made of soft PVC film for marking areas with strong magnetic or discharge fields.

TECHNICAL DATA

Ausführungsklasse	TEC
Height	100
Sales unit	1 Stück
Weight	0.1 kg
Width	100

DESCRIPTION

This warning sign marks areas that people with a pacemaker should not enter, such as near degaussers, ionisers or strong magnetic field sources. The self-adhesive prohibition symbol is immediately understood.

BENEFITS

- Clear prohibition symbol following common pictogram conventions
- Self-adhesive for direct mounting on equipment and doors
- Durable soft PVC film

TECHNICAL DATA

- Diameter: 10 cm
- Material: soft PVC film
- Mounting: self-adhesive
- Pack: 1 piece

APPLICATION

For marking workplaces and equipment with strong magnetic or discharge fields where people with a pacemaker may be at risk.
