

Antistatic floor wax Low VOC, dissipative, 19 l

Item no. EP1204010

Manufacturer A1-ESD

Dissipative floor coating with a low content of volatile organic compounds. Zinc-free and lead-free, RoHS compliant. 19 l bag-in-box container.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Certification	IEC 61340-5-1
Country of Manufacture	United States
Sales unit	19 l
Weight	0.1 kg

STANDARDS & COMPLIANCE

IEC 61340-5-1

DESCRIPTION

The antistatic floor wax is a dissipative floor coating with a particularly low content of volatile organic compounds (Low VOC). It maintains the electrostatic dissipation of the floor and is zinc-free and lead-free.

BENEFITS

- Low VOC content
- Zinc-free and lead-free
- RoHS compliant

TECHNICAL DATA

- Type: antistatic floor coating (floor wax)
- Static dissipative: $R_p = 10^7$ to $10^9 \Omega$
- Container: 19 l, bag-in-box

APPLICATION

Dissipative floor care in EPA areas to IEC 61340-5-1.
