

ESD Spiral Wrap for cable bundling, transparent, 10 m

Item no. EP0901037

Manufacturer A1-ESD

Transparent ESD spiral wrap for cable bundling with a length of 10 m. The dissipative band gathers cable bundles of 5 to 20 mm while keeping a surface resistance of around 10^9 Ohm in the ESD protected area.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Transparent
Sales unit	Rolle 10 m
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Spiral wrap for bundling and protecting cables in the ESD protected area (EPA). The transparent dissipative band is wound around the cable bundle and keeps leads neatly gathered without breaking ESD protection.

TECHNICAL DATA

- Colour: transparent
- Length: 10 m
- Inner diameter: 4 mm
- Cable bundle diameter: 5 to 20 mm
- Surface resistance: approx. 10^9 Ohm

APPLICATION

Bundling and protection of cable harnesses at ESD workstations and in cable assembly.
