

Calibration board for 2-point miniprobe heads - A1-ESD EP0299031

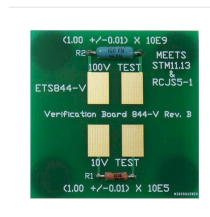

Item no. EP0299031 **Manufacturer** A1-ESD

Manufacturer no. EP0299031

Calibration board for checking 2-point miniprobe measuring heads. Provides defined reference resistances at test voltages of 10 V and 100 V.

TECHNICAL DATA

| Article authenticity | Original product |
| Condition of article | New |
| Execution | ESD (antistatic) |
| Sales unit | 1 Stück |
| Weight | 0.1 kg |

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The calibration board is used to check 2-point miniprobe measuring heads. It provides defined reference values for verifying the heads at the common test voltages.

Benefits

- Defined reference for functional testing of miniprobe heads
- Test voltages 10 V and 100 V
- Easy handling for routine checks

Technical data

- Use: checking 2-point miniprobe measuring heads
- Test voltages: 10 V and 100 V

Applications

For routine functional checks of miniprobe heads in ESD measurement.
