

Charge plate for ioniser testing for EMIT electrostatic field meter - A1-ESD EP0201023

Item no. EP0201023 **Manufacturer** A1-ESD**Manufacturer no.** EP0201023

Charge plate (plate electrode) for verifying ionisers together with an EMIT electrostatic field meter. Allows measurement of decay time to assess air ionisers.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Execution	ESD (antistatic)
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

This charge plate is used to verify ionisers together with an EMIT electrostatic field meter. The plate electrode is charged and the decay time achieved by the ioniser can then be assessed.

Application

- Verification of air ionisers at the ESD workstation
- For use with EMIT electrostatic field meters

Used within an ESD control programme to IEC 61340-5-1.
