

Nitrogen Nozzle G N2 Soldering Tip - Hakko B2900

Item no. HK-B2900

Manufacturer Hakko

EAN 4962615014314

Nitrogen nozzle G designed for Hakko N2 soldering tips in T6, T13, and T17 formats with BC3, BCF3, and BCM3 compatibility. Essential replacement part for nitrogen-assisted soldering applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

B2900

DESCRIPTION

OVERVIEW

The Hakko B2900 is a precision nitrogen nozzle G designed for use with Hakko N2 soldering tips. This component enables nitrogen-assisted soldering, which reduces oxidation and improves solder joint quality. Compatible across multiple tip formats and sizes for versatile rework applications.

KEY FEATURES

- Nitrogen nozzle G type for N2 soldering tips
- Compatible with T6, T13, and T17 tip formats
- Supports BC3, BCF3, and BCM3 connector types
- Reduces solder oxidation during assembly
- Precision-engineered for reliable performance
- Genuine Hakko replacement component

TECHNICAL SPECIFICATIONS

Nozzle Type	G (Nitrogen)
Compatible Tip Formats	T6, T13, T17
Connector Types	BC3, BCF3, BCM3

APPLICATIONS

Ideal for nitrogen-assisted soldering in precision electronics assembly, rework stations, and applications requiring reduced oxidation and improved solder wetting. Commonly used in lead-free soldering processes.

SCOPE OF DELIVERY

- 1x Nitrogen Nozzle G (B2900)
