

Nitrogen Soldering Nozzle D Format - Hakko B2709

Item no. HK-B2709

Manufacturer Hakko

EAN 4962615532870

Nitrogen soldering nozzle D format designed for Hakko N2-compatible soldering tips in T6, T13, and T17 formats. Enables inert gas soldering for enhanced joint quality and reduced oxidation.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

B2709

DESCRIPTION

OVERVIEW

The Hakko B2709 is a precision nitrogen soldering nozzle in D format, engineered for use with Hakko N2-compatible soldering tips. This accessory enables inert gas soldering, which significantly reduces oxidation and improves solder joint quality, particularly for sensitive electronic components and fine-pitch applications.

KEY FEATURES

- Compatible with T6, T13, and T17 format N2 soldering tips
- D format nozzle design for optimal gas flow and coverage
- Enables nitrogen-assisted soldering for reduced oxidation
- Precision-engineered for consistent performance
- Genuine Hakko replacement accessory

TECHNICAL SPECIFICATIONS

Nozzle Type	D Format
Compatible Tip Formats	T6, T13, T17 (D08)
Gas Type	Nitrogen (N2)

APPLICATIONS

Ideal for soldering operations requiring inert gas assistance, including fine-pitch component assembly, sensitive electronics, and applications where solder joint oxidation must be minimized. Commonly used in aerospace, medical device, and high-reliability electronics manufacturing.

SCOPE OF DELIVERY

- 1x Hakko B2709 Nitrogen Soldering Nozzle D Format
