

Soldering Tip Quad 15.8×15.8mm - Hakko T15-1208

Item no. HK-T15-1208 Manufacturer Hakko EAN 4962615026911

Composite soldering tip in quad format (15.8×15.8mm) designed for Hakko FM-2027 and FM-2028 handpieces. Delivers reliable heat transfer and extended tip life for high-volume soldering applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T15-1208 is a composite soldering tip featuring a quad format with 15.8×15.8mm dimensions. This professional-grade tip is engineered for use with Hakko FM-2027 and FM-2028 handpieces, delivering consistent thermal performance and extended operational life in high-volume soldering environments.

KEY FEATURES

- Quad format design (15.8×15.8mm) for versatile soldering applications
- Composite construction for enhanced durability and heat retention
- Compatible with FM-2027 (70W) and FM-2028 (70W) handpieces
- Also compatible with FM-203, FM-204, FM-206 handpieces and FX-950, FX-951, FX-952 stations
- ESD-safe design for sensitive component protection
- Extended tip life reduces replacement frequency

TECHNICAL SPECIFICATIONS

Tip Format	Quad
Tip Dimensions	15.8×15.8mm
Material	Composite

Compatible Handpieces	FM-2027, FM-2028
Compatible Stations	FM-203, FM-204, FM-206, FX-950, FX-951, FX-952
Power Rating	70W
Country of Origin	Japan

APPLICATIONS

Ideal for high-volume soldering operations, PCB assembly, rework, and general-purpose soldering tasks requiring reliable thermal performance and extended tip durability. The quad format provides flexibility for various joint sizes and geometries.

SCOPE OF DELIVERY

- 1x Hakko T15-1208 Soldering Tip
