Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T15-1402 is a composite soldering tip featuring a spatula geometry with a 15.7mm width. This replacement tip is engineered for use with FM-207 and FM-208 handpieces across multiple Hakko soldering stations, providing reliable heat transfer and solder wetting characteristics for general-purpose soldering applications.

KEY FEATURES

- Composite tip construction for durability and thermal performance
- Spatula-shaped design ideal for broad surface soldering
- 15.7mm width for versatile component placement
- Compatible with FM-207 (70W) and FM-208 (70W) handpieces
- Professional-grade replacement for multiple Hakko station models
- Consistent heat distribution across the tip surface

COMPATIBILITY

Compatible with the following Hakko soldering stations and handpieces: FM-203 with FM-207, FM-204 with FM-207, FM-206 with FM-207, FX-950 with FM-208, FX-951 with FM-208, FX-952 with FM-208, and FM-202 (discontinued) with FM-2021 or FM-2027 handpieces.

TECHNICAL SPECIFICATIONS

Tip Type	Spatula
Tip Width	15.7 mm
Tip Material	Composite
Compatible Handpieces	FM-2027, FM-2028
Handpiece Power Rating	70 W
Country of Origin	Japan
