

Composite Soldering Tip 0.2mm SB - Hakko T15-SB02

Item no. HK-T15-SB02

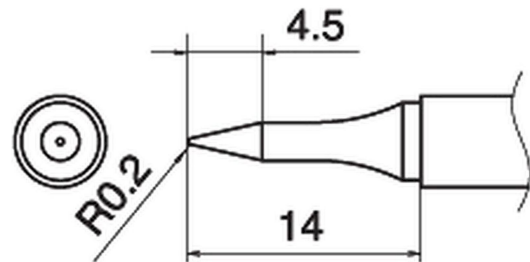

Manufacturer Hakko

EAN 4962615027222

High-precision composite soldering tip in 0.2mm SB format. Designed for FM-2027 and FM-2028 handpieces used in FM-203, FM-204, FM-206, FX-950, FX-951, and FX-952 soldering stations. Ideal for fine-pitch component soldering.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T15-SB02 is a precision composite soldering tip featuring a 0.2mm SB format design. This ultra-fine tip is engineered for detailed soldering applications requiring exceptional accuracy and control. Compatible with FM-2027 and FM-2028 handpieces across multiple Hakko soldering station models.

KEY FEATURES

- 0.2mm SB format for ultra-fine soldering precision
- Composite construction for enhanced durability and heat transfer
- Compatible with FM-2027 (70W) and FM-2028 (70W) handpieces
- Suitable for fine-pitch and miniature component work
- Consistent thermal performance across extended use

COMPATIBILITY

This tip is compatible with the following Hakko soldering stations and handpieces:

- FM-203 station with FM-2027 handpiece (70W)
- FM-204 station with FM-2027 handpiece (70W)
- FM-206 station with FM-2027 handpiece (70W)
- FX-950 station with FM-2028 handpiece (70W)

- FX-951 station with FM-2028 handpiece (70W)
- FX-952 station with FM-2028 handpiece (70W)

APPLICATIONS

Ideal for precision soldering of fine-pitch components, miniature electronics, jewelry repair, and detailed PCB work where accuracy and control are paramount.
