

Soldering Tip Composite 0.8mm SB - Hakko T15-SB08

Item no. HK-T15-SB08	Manufacturer Hakko	EAN 4962615027246
----------------------	--------------------	-------------------

Composite soldering tip in 0.8mm SB format designed for Hakko FM-2027 and FM-2028 handpieces. Delivers reliable heat transfer and extended tip life for precision soldering applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T15-SB08 is a composite soldering tip featuring a 0.8mm SB format geometry. Engineered for use with Hakko FM-2027 and FM-2028 handpieces, this replacement tip delivers consistent thermal performance and durability for professional soldering work.

KEY FEATURES

- Composite tip construction for enhanced durability and heat retention
- 0.8mm SB format geometry optimized for precision soldering
- Compatible with multiple Hakko handpiece models
- Extended operational lifespan compared to standard tips
- Reliable thermal conductivity for consistent solder joints

TECHNICAL SPECIFICATIONS

Tip Format	0.8mm SB
Tip Type	Composite
Compatible Handpieces	FM-2027, FM-2028
Compatible Stations	FM-203, FM-204, FM-206, FX-950, FX-951, FX-952

APPLICATIONS

Ideal for general-purpose soldering, electronics assembly, PCB work, and maintenance applications where precision and reliability are essential. The 0.8mm tip geometry suits fine-pitch component soldering and detailed circuit board work.
