

Soldering Tip BL Format - Hakko T17-BL

Item no. HK-T17-BL

Manufacturer Hakko

EAN 4962615028786

BL format composite soldering tip designed for Hakko FM-2026 70W handpiece. Compatible with FM-203, FM-204, FM-206, FX-950, FX-951, and FX-952 handpieces. Precision-engineered for reliable heat transfer and solder flow.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T17-BL is a composite soldering tip in BL format, specifically engineered for use with the FM-2026 70W handpiece. This replacement tip delivers consistent thermal performance and reliable solder joint quality across multiple Hakko soldering stations and rework systems.

KEY FEATURES

- BL format composite construction for optimal heat distribution
- Compatible with FM-2026 70W handpiece across multiple station models
- Precision-engineered tip geometry for accurate solder placement
- Durable composite material resists oxidation and thermal stress
- Supports professional soldering and rework applications

COMPATIBILITY

This tip is compatible with the following Hakko handpieces and stations: FM-203, FM-204, FM-206, FX-950, FX-951, FX-952, and FM-202 (discontinued). All models utilize the FM-2026 70W handpiece.

TECHNICAL SPECIFICATIONS

Tip Format	BL
------------	----

Compatible Handpiece	FM-2026 (70W)
Material	Composite
Country of Origin	Japan

APPLICATIONS

Ideal for general-purpose soldering, PCB assembly, rework operations, and maintenance tasks requiring reliable thermal performance and precise solder joint formation.
