DESCRIPTION

OVERVIEW

The Hakko T17-KF is a composite soldering tip in KF format, engineered for use with the FM-2026 70W handpiece. This professional-grade tip delivers consistent heat transfer and durability across a wide range of soldering applications, making it ideal for both production and repair work.

KEY FEATURES

- KF format composite construction for enhanced durability
- Compatible with FM-2026 70W handpiece
- Reliable heat transfer for consistent soldering results
- Professional-grade performance for industrial applications
- Designed for extended operational life

COMPATIBILITY

The T17-KF tip is compatible with the following Hakko soldering stations and handpieces: FM-203, FM-204, FM-206, FX-950, FX-951, and FX-952 (all using the FM-2026 70W handpiece). Note: FM-202 compatibility is available but this model is discontinued.
