DESCRIPTION

OVERVIEW

The Hakko T18-CF15 is a pre-tinned soldering tip featuring a 1.5mm chisel format design. This tip is engineered for precision soldering work and is compatible with the FX-8801 handpiece found across multiple Hakko soldering stations and irons.

KEY FEATURES

- 1.5mm chisel format for controlled solder application
- Pre-tinned surface for improved heat transfer and wetting
- Compatible with FX-8801 handpiece (65W)
- Suitable for fine-pitch and general-purpose soldering
- Durable construction for extended service life

COMPATIBILITY

This tip is compatible with the following Hakko soldering stations and irons equipped with the FX-8801 handpiece: FX-888 (discontinued), FX-888D, FX-889, FR-701, FR-702. Also compatible with FX-600 iron (50W).

TECHNICAL SPECIFICATIONS

Tip Format	Chisel (CF)
------------	-------------

Tip Size	1.5mm
Surface Finish	Pre-tinned
Handpiece Compatibility	FX-8801 (65W)
Country of Origin	Japan

APPLICATIONS

Ideal for general-purpose soldering, fine-pitch component work, and applications requiring precise solder placement. The 1.5mm chisel format provides excellent thermal contact and control for both through-hole and surface-mount assembly.
