Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T18-B is a genuine soldering tip in B format, designed for use with Hakko soldering stations and handpieces. This replacement tip is engineered to deliver reliable heat transfer and consistent solder joint quality across a wide range of soldering applications.

KEY FEATURES

- B-format tip geometry for versatile soldering tasks
- Compatible with multiple Hakko soldering stations and handpieces
- Genuine Hakko manufacturing ensures quality and durability
- Designed for professional electronics assembly and repair
- Replacement part for worn or damaged tips

COMPATIBILITY

The T18-B tip is compatible with the following Hakko soldering stations and handpieces:

- FX-888 (Discontinued) with FX-8801 handpiece (65W)
- FX-888D with FX-8801 handpiece (65W)
- FX-889 with FX-8801 handpiece (65W)
- FR-701 with FX-8801 handpiece (65W)

- FR-702 with FX-8801 handpiece (65W)
- FX-600 with FX-600 handpiece (50W)

APPLICATIONS

Ideal for general-purpose soldering, PCB assembly, component rework, and maintenance of electronic equipment. The B-format tip provides a balance of heat capacity and precision for a wide variety of soldering tasks.
