

Composite Soldering Tip 2BCF Format - Hakko T20-BCF2

Item no. HK-T20-BCF2 Manufacturer Hakko EAN 4962615032431

Pre-tinned composite soldering tip in 2BCF format designed for Hakko FX-8301 (150W) and FX-8302 handpieces. Delivers reliable heat transfer and extended tip life for professional soldering applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T20-BCF2 is a composite soldering tip in 2BCF format, engineered for use with Hakko FX-8301 and FX-8302 handpieces. The tip features a pre-tinned soldering surface that ensures immediate wetting and consistent heat transfer during soldering operations.

KEY FEATURES

- 2BCF format composite construction for durability and thermal performance
- Pre-tinned soldering surface for enhanced wetting and reduced oxidation
- Compatible with FX-8301 (150W) and FX-8302 handpieces
- Designed for precision soldering applications
- Extended tip life compared to standard alternatives

TECHNICAL SPECIFICATIONS

Tip Format	2BCF
Tip Surface	Pre-tinned
Compatible Handpieces	FX-8301 (150W), FX-8302
Country of Origin	Japan

APPLICATIONS

Ideal for general-purpose soldering, electronics assembly, and rework applications where consistent heat transfer and reliable tip performance are essential.
