

Composite Soldering Tip 1D Format - Hakko T30-D1

Item no. HK-T30-D1

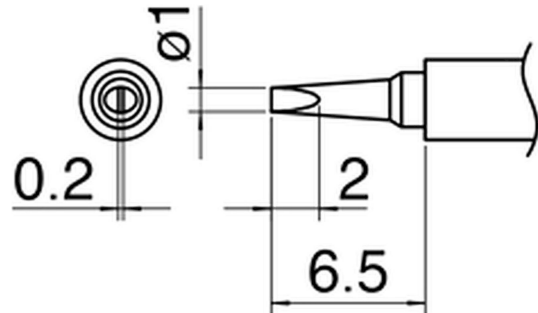

Manufacturer Hakko

EAN 4962615041808

Composite soldering tip in 1D format designed for Hakko FM-2032 handpiece. Compatible with FM-203, FM-206, and FX-951 soldering stations. Durable composite construction for reliable performance.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T30-D1 is a composite soldering tip in 1D format, engineered for use with the FM-2032 handpiece across multiple Hakko soldering station platforms. This replacement tip delivers consistent thermal performance and durability for professional soldering applications.

KEY FEATURES

- Composite construction for enhanced durability and heat transfer
- 1D format design optimized for standard soldering tasks
- Compatible with FM-2032 handpiece across multiple station models
- Reliable thermal characteristics for consistent solder joint quality
- Designed for professional and industrial soldering environments

COMPATIBILITY

The T30-D1 tip is compatible with the following Hakko soldering stations and handpieces:

- FM-203 soldering station with FM-2032 handpiece (48W)
- FM-206 soldering station with FM-2032 handpiece (48W)
- FX-951 soldering station with FM-2032 handpiece (48W)

TECHNICAL SPECIFICATIONS

Tip Format	1D
Material	Composite
Compatible Handpiece	FM-2032 (48W)
Country of Origin	Japan
