

Composite Soldering Tip KU Format - Hakko T30-KU

Item no. HK-T30-KU

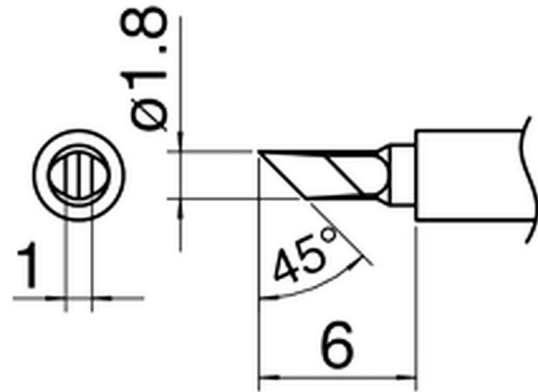

Manufacturer Hakko

EAN 4962615041839

Composite soldering tip in KU format designed for Hakko FM-2032 handpiece. Compatible with FM-203, FM-206, and FX-951 soldering stations. Reliable heat transfer for precision soldering applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T30-KU is a composite soldering tip in KU format, engineered for use with the FM-2032 handpiece. This tip is compatible with multiple Hakko soldering stations including the FM-203, FM-206, and FX-951 models, making it a versatile choice for various soldering applications.

KEY FEATURES

- KU format composite tip design
- Compatible with FM-2032 handpiece (48W)
- Works with FM-203, FM-206, and FX-951 stations
- Reliable heat transfer characteristics
- Precision soldering capability

COMPATIBILITY

This tip is specifically designed for the FM-2032 handpiece and is compatible with the following Hakko soldering stations: FM-203, FM-206, and FX-951. The 48W power rating ensures consistent performance across these platforms.
