

Desoldering Nozzle 1.0mm Long - Hakko N3-L10

Item no. HK-N3-L10	Manufacturer Hakko	EAN 4962615028236
--------------------	--------------------	-------------------

Extended-length desoldering nozzle with 1.0mm opening, designed for Hakko FM-204 and FM-2024 desoldering pumps. Ideal for precision solder removal in tight spaces and component extraction.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko N3-L10 is a precision desoldering nozzle featuring a 1.0mm opening and extended length design. It is specifically engineered for use with Hakko FM-204 and FM-2024 desoldering pumps, enabling efficient and controlled solder removal during component rework and PCB repair operations.

KEY FEATURES

- 1.0mm nozzle opening for fine-pitch component desoldering
- Extended length design for improved access to recessed solder joints
- Compatible with FM-204 and FM-2024 desoldering pump systems
- Precision-engineered for reliable solder suction
- Durable construction for extended service life

TECHNICAL SPECIFICATIONS

Nozzle Opening	1.0mm
Design Type	Extended Length
Compatible Pumps	FM-204, FM-2024

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for desoldering fine-pitch components, surface-mount devices (SMD), and precision PCB rework. The extended length provides superior access to solder joints in confined areas and multi-layer board configurations.

SCOPE OF DELIVERY

- 1x Hakko N3-L10 Desoldering Nozzle
