

Hot Air Nozzle 8mm - Hakko N4-04

Item no. HK-N4-04	Manufacturer Hakko	EAN 4962615037641
-------------------	--------------------	-------------------

8mm diameter hot air nozzle designed for the Hakko FM-2029 hot air soldering iron. Enables precise heating and rework of electronic components with controlled air flow.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko N4-04 is an 8mm hot air nozzle specifically engineered for use with the FM-2029 hot air soldering iron. This precision nozzle directs heated air in a concentrated 8mm diameter pattern, making it ideal for targeted component rework, desoldering, and reflow applications on printed circuit boards.

KEY FEATURES

- 8mm nozzle diameter for focused heat application
- Compatible with FM-2029 hot air soldering iron
- Precision-engineered for consistent air flow distribution
- Durable construction for extended operational life
- Enables controlled rework and component placement

TECHNICAL SPECIFICATIONS

Nozzle Type	Hot Air Nozzle
Nozzle Diameter	8mm
Compatible Handpiece	FM-2029

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for PCB rework, component desoldering, BGA rework preparation, surface mount device (SMD) placement, and precision heating tasks requiring controlled thermal application in electronics manufacturing and repair.
