

Thermal Wire Stripper Kit 46W - Hakko FT 8003-81

Item no. HK-FT-8003-81	Manufacturer Hakko	EAN 4962615055263
------------------------	--------------------	-------------------

Complete thermal wire stripper kit for Hakko FT 802 desoldering station. 46W heating power at 24V. Includes replacement blade G3-1601, solder pot holder C 5034, and protective shield for efficient wire insulation removal.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85439000
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko FT 8003-81 is a comprehensive thermal wire stripper kit designed specifically for use with the Hakko FT 802 desoldering station. This kit provides all necessary components for efficient thermal stripping of wire insulation in electronics manufacturing and repair environments.

KEY FEATURES

- 46W heating power for reliable thermal stripping performance
- 24V operation for safe laboratory and workshop use
- Includes G3-1601 replacement cutting blade for extended service life
- C 5034 solder pot holder with integrated protective shield
- Designed for seamless integration with FT 802 system
- Professional-grade construction for consistent results

TECHNICAL SPECIFICATIONS

Power Rating	46 W
Operating Voltage	24 V
Compatible Station	Hakko FT 802
Country of Origin	Japan

SCOPE OF DELIVERY

- Thermal wire stripper heating unit (46W, 24V)
- G3-1601 replacement cutting blade
- C 5034 solder pot holder with protective shield
- Installation and operation documentation

APPLICATIONS

Ideal for electronics manufacturers, repair technicians, and PCB assembly operations requiring efficient thermal wire stripping. Particularly suited for removing insulation from fine gauge wires without mechanical damage to conductor material.
