

Desoldering Pump Prefilter - Hakko B5080

Item no. HK-B5080

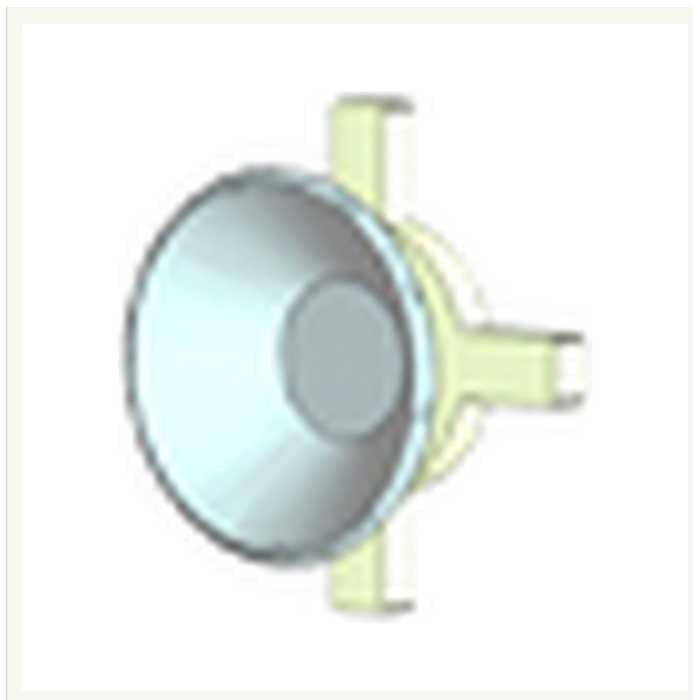

Manufacturer Hakko

EAN 4962615044595

Replacement prefilter for the Hakko FR4001 desoldering pump. Captures large solder particles and debris before reaching the main filter, extending overall filter service life and maintaining optimal pump performance.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko B5080 is a prefilter designed specifically for the FR4001 desoldering pump. This consumable component captures large solder particles and debris before they reach the main filter, significantly extending the service life of your filtration system and maintaining consistent desoldering performance.

KEY FEATURES

- Designed for Hakko FR4001 desoldering pump
- Captures large solder particles and contaminants
- Extends main filter lifespan
- Easy replacement design
- Maintains optimal vacuum performance
- Cost-effective consumable

TECHNICAL SPECIFICATIONS

Compatible Equipment	Hakko FR4001 Desoldering Pump
Product Type	Replacement Filter
Country of Origin	Japan

APPLICATIONS

Ideal for electronics repair, PCB rework, and component desoldering operations where maintaining consistent vacuum performance is critical. Regular prefilter replacement ensures reliable solder removal and extends the life of your desoldering equipment.

SCOPE OF DELIVERY

- 1x Hakko B5080 Prefilter
