

Desoldering Pump Filter Tube - Hakko B5194

Item no. HK-B5194

Manufacturer Hakko

EAN 4962615051456

Genuine replacement filter tube for the Hakko FR 301 desoldering station. Ensures consistent suction performance by filtering solder debris and flux residue from the pump intake.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko B5194 is a replacement filter tube designed specifically for the FR 301 desoldering station. This consumable component filters solder particles and flux residue from the pump intake, maintaining reliable suction performance and protecting the internal pump mechanism from contamination.

KEY FEATURES

- Genuine Hakko replacement part for FR 301 desoldering pump
- Filters solder debris and flux residue effectively
- Extends pump lifespan by preventing internal contamination
- Easy installation and replacement
- Maintains consistent desoldering performance

TECHNICAL SPECIFICATIONS

Compatibility	Hakko FR 301 Desoldering Station
Component Type	Filter Tube
Country of Origin	Japan

APPLICATIONS

Ideal for maintenance and repair of Hakko FR 301 desoldering stations. Regular replacement of the filter tube ensures optimal pump performance and extends equipment lifespan in professional soldering and rework environments.

SCOPE OF DELIVERY

- 1x Hakko B5194 Filter Tube
