

Desoldering Nozzle Positioning Guide - Hakko B5230

Item no. HK-B5230

Manufacturer Hakko

EAN 4962615053719

Positioning guide designed for oval desoldering nozzles used with the Hakko FR4103 desoldering pump. Ensures precise nozzle alignment during desoldering operations.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko B5230 is a specialized positioning guide designed to align oval desoldering nozzles when used in conjunction with the FR4103 desoldering pump. This accessory ensures consistent and accurate nozzle placement during desoldering work, improving precision and reducing component damage.

KEY FEATURES

- Designed specifically for oval desoldering nozzles
- Compatible with Hakko FR4103 desoldering pump
- Ensures precise nozzle positioning and alignment
- Improves desoldering accuracy and repeatability
- Reduces risk of damage to PCB and components
- Lightweight and easy to install

APPLICATIONS

Ideal for electronics repair, PCB rework, and component removal operations where precise nozzle alignment is critical. Particularly useful in high-volume desoldering tasks requiring consistent results.

COMPATIBILITY

Compatible with Hakko FR4103 desoldering pump and oval-type desoldering nozzles.
