

Composite Desoldering Tip SOP 20L - Hakko T16-1010

Item no. HK-T16-1010 Manufacturer Hakko EAN 4962615028144

Composite desoldering tip in SOP 20L format designed for use with the Hakko FM 2022 parallel desoldering tweezers. Pack contains 2 replacement tips for efficient SMD component removal.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko T16-1010 is a composite desoldering tip specifically engineered for the FM 2022 parallel desoldering tweezers system. Designed in SOP 20L format, these tips enable precise and efficient removal of surface-mounted devices from PCBs without damaging surrounding components or traces.

KEY FEATURES

- SOP 20L format for standardized SMD package compatibility
- Composite construction for optimal heat transfer and durability
- Pack of 2 replacement tips for extended operational life
- Designed exclusively for FM 2022 parallel desoldering tweezers
- Enables controlled, simultaneous desoldering of multiple leads
- Reduces thermal stress on PCB and adjacent components

TECHNICAL SPECIFICATIONS

Tip Format	SOP 20L
Compatibility	Hakko FM 2022 Parallel Desoldering Tweezers
Material	Composite

Quantity per Pack	2 tips
Country of Origin	Japan

APPLICATIONS

Ideal for electronics manufacturing, PCB rework, and component replacement operations. Particularly suited for desoldering small-outline packages and other surface-mounted devices in precision assembly environments.

SCOPE OF DELIVERY

- 2 × Composite Desoldering Tips (SOP 20L format)
