

Hot Air Nozzle QFP 10×10 - Hakko A1125B

Item no. HK-A1125BManufacturer HakkoEAN 4962615009143

Precision hot air nozzle designed for QFP 10×10 component rework. Compatible with Hakko 850, 852, FR-801, FR-802, and FR-803 hot air stations. Japanese-made quality.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko A1125B is a specialized hot air nozzle engineered for precise rework of QFP (Quad Flat Package) 10×10 components. This nozzle is compatible with multiple Hakko hot air stations, making it an essential accessory for electronics repair and PCB assembly operations requiring targeted thermal processing.

KEY FEATURES

- Optimized design for QFP 10×10 package geometry
- Compatible with Hakko 850, 852, FR-801, FR-802, and FR-803 stations
- Precision-engineered for uniform heat distribution
- Japanese manufacturing quality and reliability
- Durable construction for extended service life

TECHNICAL SPECIFICATIONS

Nozzle Type	Hot Air Nozzle
Package Compatibility	QFP 10×10
Compatible Stations	Hakko 850, 852, FR-801, FR-802, FR-803

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for rework operations involving QFP 10×10 integrated circuits, including component removal, replacement, and repair on printed circuit boards in electronics manufacturing and repair facilities.
