

Hot Air Nozzle QFP
17.5×17.5mm - Hakko A1127B

Item no. HK-A1127B Manufacturer Hakko EAN 4962615009167

Precision hot air nozzle designed for QFP (Quad Flat Package) components measuring 17.5×17.5mm. Compatible with Hakko 850, 852, FR-801, FR-802, and FR-803 hot air rework stations.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko A1127B is a specialized hot air nozzle engineered for precise rework of QFP (Quad Flat Package) components with 17.5×17.5mm dimensions. This nozzle delivers controlled thermal distribution essential for reliable solder reflow on medium-sized surface-mount packages.

KEY FEATURES

- Optimized design for QFP 17.5×17.5mm packages
- Uniform heat distribution across component area
- Compatible with multiple Hakko hot air stations
- Durable construction for extended service life
- Precision-engineered for consistent rework results

TECHNICAL SPECIFICATIONS

Nozzle Type	QFP 17.5×17.5mm
Compatible Stations	850, 852, FR-801, FR-802, FR-803
Country of Origin	Japan

APPLICATIONS

Ideal for rework and repair of QFP integrated circuits in electronics manufacturing, repair shops, and laboratory environments. Suitable for prototype development and production-level component replacement.

SCOPE OF DELIVERY

- 1× Hot air nozzle A1127B
