

Hot Air Nozzle SOP 13×28 - Hakko A1259B

Item no. HK-A1259B

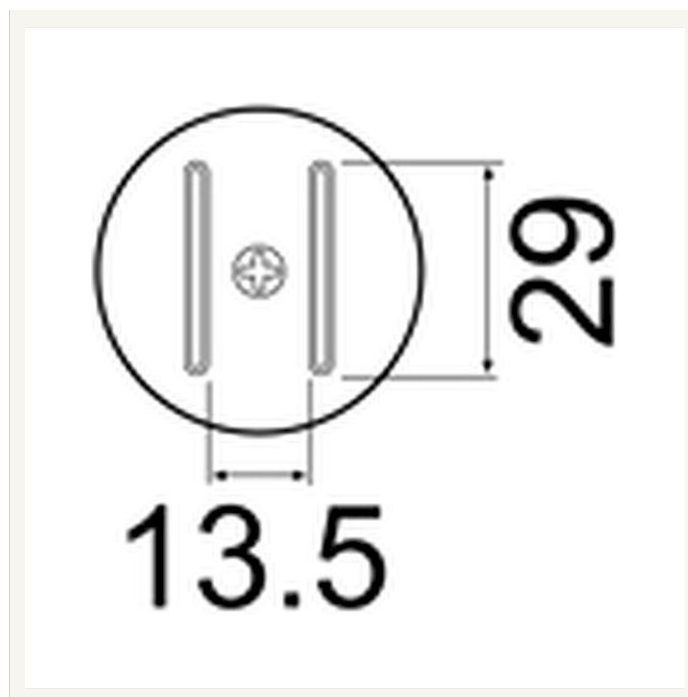

Manufacturer Hakko

EAN 4962615009297

SOP 13×28mm hot air nozzle for Hakko hot air rework stations. Designed for precise component heating during desoldering and rework operations on surface-mount packages.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko A1259B is a specialized hot air nozzle designed for rework operations on SOP (Small Outline Package) components measuring 13×28mm. This nozzle is engineered for use with Hakko hot air rework stations, providing precise thermal control during desoldering and component replacement tasks.

KEY FEATURES

- SOP 13×28mm package compatibility
- Optimized nozzle geometry for uniform heat distribution
- Compatible with multiple Hakko hot air station models
- Precision-engineered for professional rework applications
- Durable construction for extended service life

TECHNICAL SPECIFICATIONS

Nozzle Type	Hot Air Nozzle
Package Size	SOP 13×28mm
Compatible Stations	Hakko 850, 852, FR801, FR802, FR803

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for rework professionals performing desoldering, component replacement, and thermal processing on small outline package components in electronics manufacturing and repair environments.
