

Hot Air Nozzle 4.4mm Single - Hakko A1130

Item no. HK-A1130	Manufacturer Hakko	EAN 4962615009198
-------------------	--------------------	-------------------

Single hot air nozzle with 4.4mm diameter for Hakko rework stations. Compatible with models 850, 852, FR801, FR802, and FR803. Designed for precision soldering and desoldering applications without vacuum function.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko A1130 is a replacement hot air nozzle designed for use with Hakko rework stations. This single nozzle features a 4.4mm diameter opening and is engineered for precision thermal applications without integrated vacuum functionality.

KEY FEATURES

- 4.4mm diameter nozzle opening for targeted heat application
- Compatible with multiple Hakko rework station models
- Single nozzle configuration for standard rework operations
- Precision-engineered for consistent air distribution
- Replacement part for maintenance and repair

TECHNICAL SPECIFICATIONS

Nozzle Diameter	4.4mm
Nozzle Type	Single
Vacuum Function	Not included
Country of Origin	Japan

COMPATIBILITY

This nozzle is compatible with the following Hakko rework stations: 850, 852, FR801, FR802, and FR803. Verify compatibility with your specific equipment before ordering.

APPLICATIONS

Ideal for precision soldering, desoldering, and component rework operations on printed circuit boards. Suitable for both through-hole and surface-mount device work.
