

Hot Air Nozzle 1.5×3mm Single - Hakko A1142B

Item no. HK-A1142B

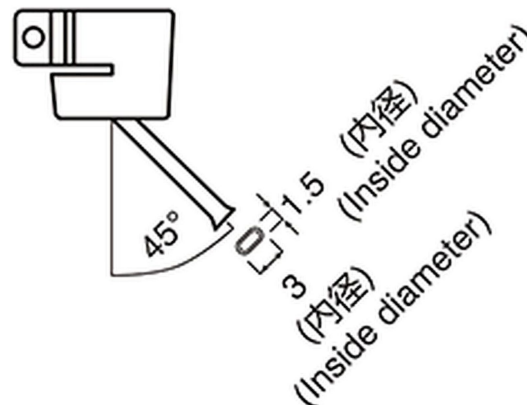

Manufacturer Hakko

EAN 4962615009242

Single hot air nozzle with 1.5×3mm opening for Hakko FR-801 and FR-802 hot air stations. Designed without vacuum function for standard rework applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko A1142B is a precision hot air nozzle designed for use with Hakko FR-801 and FR-802 hot air rework stations. This single nozzle features a 1.5×3mm opening and operates without vacuum function, making it ideal for standard component rework and desoldering applications.

KEY FEATURES

- 1.5×3mm nozzle opening for targeted heat application
- Compatible with FR-801 and FR-802 hot air stations
- Single nozzle configuration without vacuum function
- Precision-engineered for consistent rework performance
- Japanese manufacturing quality

TECHNICAL SPECIFICATIONS

Nozzle Type	Single hot air nozzle
Nozzle Opening	1.5×3mm
Vacuum Function	None
Compatible Stations	FR-801, FR-802

Not Compatible With	FR-803
Country of Origin	Japan

APPLICATIONS

Ideal for precision rework of small to medium-sized components, surface mount device (SMD) removal and replacement, and general desoldering tasks on PCBs where targeted heat application is required.
