

Desoldering Tweezers Tip Pair

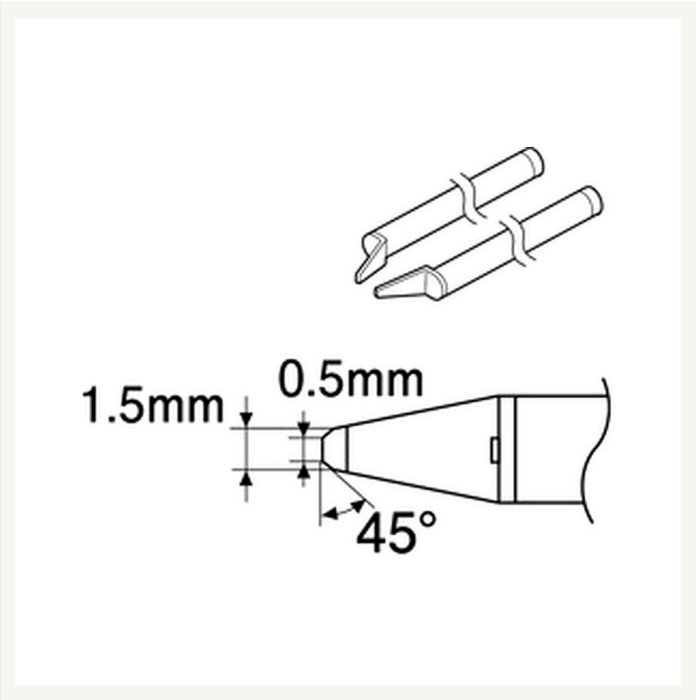

Chip 0.5C - Hakko A1388

Item no. HK-A1388	Manufacturer Hakko	EAN 4962615516849
-------------------	--------------------	-------------------

Specialized replacement tip pair for Hakko desoldering tweezers. CHIP 0.5C profile, compatible with Hakko 950 and FX-8804 models. Pack of 2 tips for precision component removal.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

OVERVIEW

The Hakko A1388 is a specialized replacement tip pair designed for use with Hakko desoldering tweezers, specifically the 950 and FX-8804 models. These precision tips feature a CHIP 0.5C profile optimized for fine-pitch component removal and rework applications.

KEY FEATURES

- CHIP 0.5C tip profile for precision desoldering
- Compatible with Hakko 950 and FX-8804 desoldering tweezers
- Set includes 2 replacement tips
- ESD-safe design for sensitive component handling
- Durable construction for extended service life

TECHNICAL SPECIFICATIONS

Tip Profile	CHIP 0.5C
Quantity	2 tips per set

Compatible Models	Hakko 950, FX-8804
ESD Safe	Yes
Country of Origin	Japan

APPLICATIONS

Ideal for desoldering and rework of fine-pitch components, chip components, and surface-mount devices. Suitable for electronics manufacturing, repair, and prototyping environments requiring precision and ESD protection.

SCOPE OF DELIVERY

- 2 × Desoldering tweezers tips (CHIP 0.5C profile)
