

AM CC PROFINET Interface Module - Bosch Rexroth 3842559445

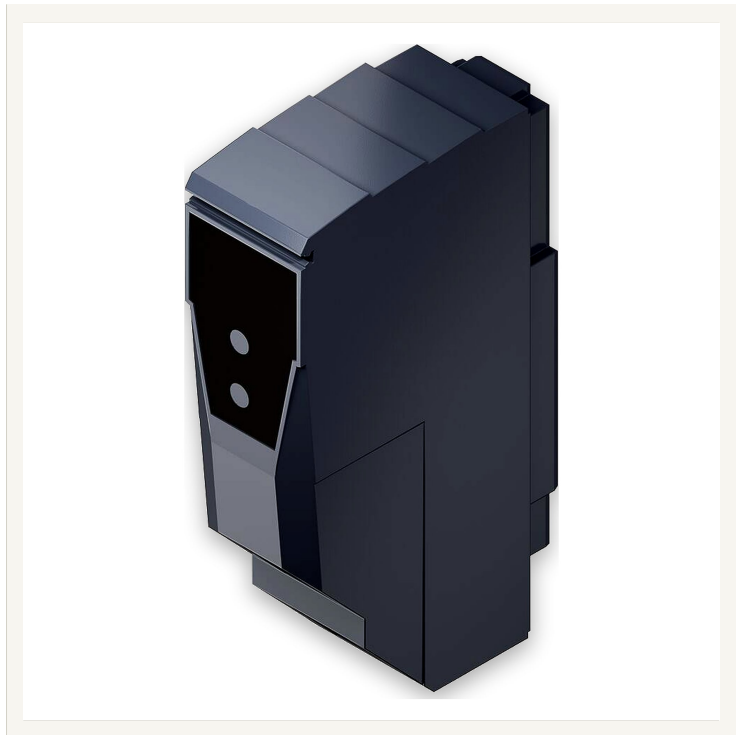

Item no. BRR-3842559445

Manufacturer Bosch Rexroth

Interface module connecting the Bosch Rexroth AM CC controller to PROFINET networks. Enables direct integration of AM assembly components into higher-level automation systems. Suitable for modular assembly and transfer line applications.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

The AM CC PROFINET interface module from Bosch Rexroth links the AM CC controller to PROFINET-based automation networks, allowing seamless communication between assembly technology components and a programmable logic controller.

- Direct PROFINET communication between AM CC controller and PLC
- Compact form factor for use in assembly cells and transfer systems
- Material: PVC

TECHNICAL DATA

Specification	Value
Type	AM CC PROFINET interface module
Interface	PROFINET
Material	PVC
Mass	0.06 kg
Weight (packaged)	0.1 kg
