

## Dosing Valve Set LU 2/V-0.03-1/8-1/8 for Central Lubrication Unit - Bosch Rexroth 3842562948

Item no. BRR-3842562948

Manufacturer Bosch Rexroth

Dosing valve set for the central automatic lubrication unit LU 2/P in the TS 2plus transfer system. The set includes 2 dosing valves, 2 straight plug connections pre-fitted for hose, 2 straight tube connections, and 2 pivot connections for adapter sets. All components are matched to each other and ready for immediate installation.

### TECHNICAL DATA

Country of Manufacture Italy

HS-Code 84818099

Weight 0.1 kg

### DESCRIPTION

The dosing valve set LU 2/V-0.03-1/8-1/8 supplies all valve and connection components needed to build or extend the central automatic lubrication unit LU 2/P in the TS 2plus transfer system. With 1/8-inch port threads on both inlet and outlet, the set fits the standardised connections of the TS 2plus infrastructure.

- Complete kit: 2 dosing valves LU 2/V-0.03-1/8-1/8 for precise lubricant metering
- 2 straight plug connections, factory pre-fitted for hose - ready to connect immediately
- 2 straight tube connections for rigid pipework routing
- 2 pivot connections for flexible alignment with adapter sets
- Total weight only 0.1 kg - negligible added load on the lubrication unit
