

Roller Carrier D35 Size 160, POM/Stainless Steel - Bosch Rexroth 3842564331

Item no. BRR-3842564331

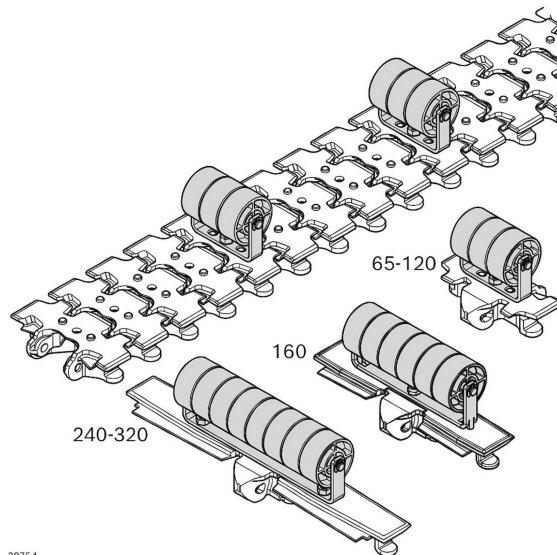

Manufacturer Bosch Rexroth

Roller carrier for the VarioFlow plus chain conveyor system, size 160. The white POM roller and stainless steel 1.4301 bracket ensure gentle, scratch-free product transport along the conveyor chain. Supplied with roller bracket pre-mounted and fastening material included; compatible chain links required separately.

TECHNICAL DATA

Country of Manufacture **Austria**

HS-Code **84313900**

Weight **0.1 kg**

DESCRIPTION

The Roller Carrier D35, size 160, is a conveyor component for the Bosch Rexroth VarioFlow plus chain conveyor system. It transfers chain motion to the conveyed product while the freely rotating POM roller prevents surface damage and abrasion. The roller bracket and axle in non-rusting steel 1.4301 provide reliable corrosion resistance in demanding production environments.

- Gentle product handling via freely rotating white POM roller
- Corrosion-resistant roller bracket and axle in stainless steel 1.4301
- Size 160 - suited to wider conveyor chain configurations in VarioFlow plus
- Ready to install: roller bracket pre-mounted, fastening material included
- Packaging unit: 1 piece

TECHNICAL DATA

Property	Value
Size [b]	160 mm
Roller diameter	D35
Roller material	POM, white
Roller bracket / axle material	Non-rusting steel 1.4301
Color	White

Property	Value
Scope of delivery	Roller bracket mounted, incl. fastening material
Required accessories	Universal chain link 65-120, Basic chain links 160-320
Weight	0.126 kg
Packaging unit	1 piece
