

Strut Profile 30x90 mm, Anodised Aluminium - Bosch Rexroth 3842993618

Item no. BRR-3842993618

Manufacturer Bosch Rexroth

Strut profile 30x90 in anodised aluminium alloy for the Bosch Rexroth assembly technology system. Serves as a bracing and framing element in fixtures, machine guarding, and workstation structures. Compatible with standard connectors of the Bosch Rexroth 30-series profile range.

TECHNICAL DATA

Country of Manufacture	Germany
HS-Code	76042100
Note	Gemäß der aktuellen Preisstruktur werden für Bestellungen von Profilen mit einer Länge von 1500 mm zusätzliche Kosten in Höhe von 80,00 Euro berechnet.
Weight	0.1 kg

DESCRIPTION

The Bosch Rexroth strut profile 30x90 is a structural element for building machine frames, equipment structures, and workstation assemblies on the 30 mm grid. The asymmetric cross-section (30 x 90 mm) provides increased rigidity along one axis, making it well suited as a brace, beam, or frame member wherever a standard square profile would be over- or under-dimensioned.

- Anodised aluminium finish for corrosion resistance and a clean appearance in production environments
- Groove accepts standard fasteners and sliding nuts from the Bosch Rexroth 30-series range
- Tool-friendly bolt-together assembly - no welding required
- Combinable with brackets, connectors, and other profile elements across the Bosch Rexroth modular framing system

TECHNICAL DATA

Property	Value
Profile designation	Strut profile 30x90
Cross-section	30 x 90 mm
Material	Aluminium alloy, anodised
Grid system	30 mm
Weight	0.1 kg
