DESCRIPTION

The Bosch Rexroth cable management profile 120x120 6N provides a structured interior channel for cables and hoses within assembly line and automation frames. Its two-part construction - profile body and hinged cover - gives straightforward access while maintaining a closed exterior finish that keeps installations tidy and professional.

- Hinged cover opens from both sides for easy cable access without dismantling the profile
- Concealed 10 mm groove accommodates socket strips or installation elements with no visible fixings
- Screw holes for secure attachment of cover plates
- Integrated mounts for dividing strips and grounding cables
- Mount for potential equalizer included
- M12 adaptation in all core holes for standardized connections throughout the profile
- Closed exterior surface for a clean appearance in the finished structure
