

Lift Transfer Unit HQ 2/O LS - Bosch Rexroth 3842999030

Item no. BRR-3842999030

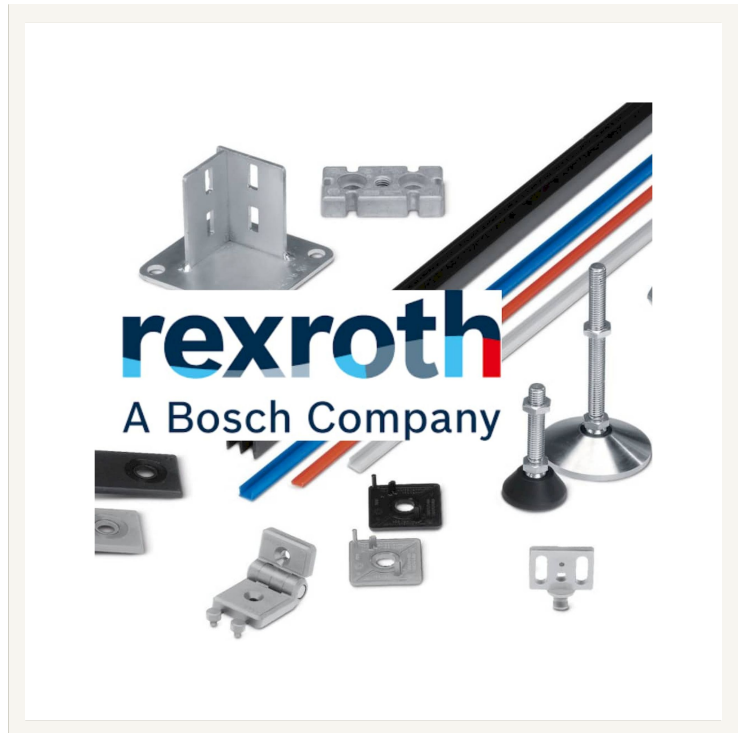

Manufacturer Bosch Rexroth

The Bosch Rexroth Lift Transfer Unit HQ 2/O LS combines lifting and lateral transfer in a single compact assembly for conveyor and transfer systems. It enables controlled diversion and feeding of workpiece carriers between parallel conveyor lines. Designed for integration into modular assembly and handling systems.

TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **84313900**

Weight **0.1 kg**

DESCRIPTION

The Lift Transfer Unit HQ 2/O LS integrates lifting and cross-transfer functions in one unit, linking or buffering parallel transfer lines in automated assembly systems. Its compact design allows installation in space-constrained line layouts without additional peripheral modules.

- **Dual function:** Combined lift and lateral movement in a single unit reduces footprint and simplifies system wiring.
- **Modular integration:** Designed for use with Bosch Rexroth transfer system series.
- **Low weight:** At approx. 0.1 kg, easy to install and replace.
